EXPERIENCE

Character Creation Teaching Assistant

Mar 2026 - Apr 2026

Emily Carr University of Art + Design

- Supported a Maya Rigging course of 16 students by leading in-class demonstrations, clarifying rigging concepts and techniques
- Provided one-on-one support sessions, giving technical and creative advice best-suited to the needs of each student

STUDENT FILM EXPERIENCE

Rewired

Jul 2025 - May 2026

Director • Production & Pipeline Manager • Rigger • Concept Artist • Technical Artist

- Led the production of a 10-person team and coordinated schedules, resource allocation, and cross-department workflows
- Built characters and prop rigs in Maya, including hair grooming in Houdini
- Developed pipeline tools, including a Scene Assembly Tool, Reference Repather, and File Cleaning tool, using Python to streamline workflows
- Created concept art to define the project's visual direction

Awarded Presidents Media Award - Best in 3D Animation, Best in Animation, Best in Sound, Best in Look-Development by Emily Carr University

Mr. Kim and Haeate

Sept 2025 - Mar 2026

Rigger

- Delivered high-quality human and creature rigs in Maya with full body and facial controls
- Provided Rigging support for a 3D animated short film voluntarily

Jannal Pari

Sept 2025 - Feb 2026

Rigger

- Delivered high-quality human rig in Maya with full body and facial controls
- Provided Rigging support for a 3D animated short film voluntarily

Those Who See

Sept 2024 - Apr 2025

Rigger • Storyboard & Concept Artist • Technical Assistant • Compositing

- Built character and prop rigs in Maya in collaboration with modelers and animators
- Created concept art that served as the visual foundation for character design
- Composited final shots in Nuke and resolved technical issues across the pipeline

EDUCATION

Emily Carr University of Art + Design

Sept 2021 - Apr 2026

Bachelor of Media Arts, 3D Computer Animation
